

# Community Health Needs Assessment Implementation Plan

Approval Date: April 26, 2022

# HealthPartners 2022 CHNA Implementation Plan

The purpose of this Community Health Needs Assessment (CHNA) Implementation Plan is to describe how Hutchinson Health Hospital plans to address each of the 5 needs areas identified through the 2021 CHNA process. The needs areas identified in the most recent CHNA are shown on the graphic to the right, and include the following:

- Mental Health and Well-being
- Access to Health
- Access to Care
- Nutrition and Physical Activity
- Substance Use

Woven throughout each of these Needs Areas are two cross-cutting contextual factors: structural racism and the COVID-19 pandemic.

Over the next three years (2022-2024), our hospital intends to address all five top significant health needs areas in some way. Below we outline strategies and actions set by Hutchinson Health to address each needs area, hospital resources that will be committed, partners and anticipated impact towards each goal.

## Goal: Improve Mental Health & Well-being
