

Medication Therapy Management (MTM) Incentive Drug List

Medication Therapy Management (MTM) incentive drugs are used to help avoid disease and maintain health. Some insurance plans have a benefit that reduces copays for drugs in certain MTM Lists when you enroll in the MTM Program. Check your plan details or ask Member Services if you have this benefit and which MTM List(s) are included in your benefit.

Please note: If there is a difference between this general information and your plan documents, your plan documents will be used to determine your coverage. Please see your plan documents for your specific coverage information.
